

14 December 2009 - Press release.

Get a move on for the Brighton Marathon!

Disability Snowsport UK are proud to be working along side The Brighton Marathon and very pleased announce we still have places left but places are running out fast!

The Brighton Marathon is set to take place Sunday 18 April 2010 at 9.00am and is a challenging 26 mile round course. The route will take the runners on a scenic tour of the many stretches of coastal road and through the vibrant city centre. The course has been planned to showcase the beautiful panoramic views where the South Downs and the English Channel meet. The course is designed to be fast but it totally flat and suitable for runners and wheelchair users.

Disability Snowsport UK has a few running places left and desperately needs your support. Disability Snowsport UK has been established for 30 years and had ski schools all around the country – providing specialist ski instructors and adaptive ski technology to enable skiers of all abilities to ski along side able-bodied skiers.
